"OLD EAGLE EYE"
Gets Recognition of His Safety First Services by the Company

The following letter is self-explanatory:

Richmond, Va., August 8, 1917.
Mr. A. J. Boyd, Operator,
Maysville, Ky.

Dear Sir: The Central Safety First Committee has kept its attention on the numerous occasions, which by your close attention to moving trains, have detected cars in bad order, chains and drawbars dragging, etc., and by your prompt reporting of same, the Committee believes you have doubtless averted accidents. In recognition of your close application to the interest of Safety, the Central Safety First Committee of The Chesapeake and Ohio Railway Company takes great pleasure in awarding you a Safety First Fob, inscribed, "For Meritorious Service."

Yours truly
E. W. GRICE, Chairman,
Central Safety Committee.

Mr. E. Stanley Holland of Chicago, First Vice President of the Bates-Rogers Construction Company, was here Saturday on an inspection trip to the government dam and found everything very satisfactory.

NINE REJECTED

OUT OF THE TWENTY-SIX EXAMINED BY DRAFT BOARD SATURDAY — FOURTEEN OUT OF REMAINING SEVENTEEN CLAIM EXEMPTION.

100 Examined During First Four Days — Thirty-four Rejected and Fifty-two Claimed Exemption — Claims For Exemption to Be Investigated.

Registration Figures For Last Week

Examined—100.
Rejected—34.
Accepted (claimed no exemption)—14.
Accepted (claimed exemption)—52.
Not reporting—7.

Twenty-six more men were examined by the Mason County Exemption Board Saturday and out of that number nine were rejected. Of the seventeen who passed the physical examination fourteen claimed exemption.

Dimitrios Carambellas, better known here as James Bellas, proprietor of the Elite Confectionery, although an alien, declared that he was ready to fight for Uncle Sam. The patriotic spirit shown by Mr. Bellas is most commendable and should be exemplified by all true Americans.

As a whole the Board is very much pleased with the spirit which the young men are manifesting when reporting for examination, although some few are making claims for exemption on minor points which will probably not hold good. A rigid investigation will be made of all claims and those that are not proven to be exactly as stated will be turned down. There is a heavy penalty for making false affidavits to support claims for exemption.

Following is the record of the candidates examined Saturday:

Accepted—No Exemption
John D. Grant.
William Limerick.
Dimitrios Carambellas.

DEATH OF MRS. ARTHUR HANEY

Mrs. Arthur Hane, aged 38 years, passed away at her home on Forest Avenue Saturday evening at 8:30 o'clock after a three weeks' illness of typhoid fever. Deceased is survived by her husband and six children—William, Cora, George, Ethel, Clarence and Thelma; her mother, Mrs. Dora Saunders, of Lexington, and three brothers—Messrs. Lewis and Frank Hane, members of the United States Army, stationed at Gettysburg, Pa., and Mr. George Hane of Lexington.

The funeral will be held from the Second M. E. Church, South, this afternoon at 2 o'clock with services by the pastor, Rev. J. J. Jackson. Burial in the Maysville cemetery.

MR. A. R. GLASCOCK

Pioneer Dairymen Dies in Private Sanatorium in Lexington Saturday — Funeral Will Be Held From Late Home in the County This Afternoon.

Mr. Albert R. Glascock, aged 83 years, one of the county's most prominent citizens, passed away at a private sanatorium in Lexington Saturday morning at 5:30 o'clock after a lingering illness of a complication of diseases and the infirmities incident to old age.

Mr. Glascock until a few years ago was quite prominent in the various business activities of this city and county and was a pioneer in the raising of fine cattle for his dairy purposes. His farm and dairy just outside of the city were always models for others and he took a just pride in them.

By frugality and honest business methods Mr. Glascock amassed quite a fortune during his lifetime. Many of his investments were in Maysville real estate and he owned considerable property in this city.

By his death Maysville and Mason county loses one of its best citizens, a man who was always progressive, judicious, courteous and charitable; one whose advice was worth much and whose friendship was highly prized.

On account of the breaking down of his health some time ago Mr. Glascock retired from the business world and turned his big interests over to his son, Mr. Arthur L. Glascock. A short time later he was taken to a private sanatorium at Lexington where everything possible known to medical skill was done for him, but to no effect.

Deceased was survived by his wife and two children, Mr. Arthur L. Glascock and Mrs. Alberta Glascock, both of whom reside in the county.

The remains were brought to this city from Lexington Saturday over the L. & N. railroad and removed to his home in the county, from which place the funeral will be held this afternoon at 2 o'clock, the services being in charge of Dr. John W. Porter, pastor of the First Baptist Church at Lexington, assisted by Rev. N. F. Jones, pastor of the First Baptist Church, this city. Interment in the Maysville cemetery.

MISS YANCEY RESIGNS

Miss Jessie O. Yancey tendered her resignation as Superintendent of County Schools to the County Board of Education at a meeting held Saturday, in order that she might begin her work with the State Tuberculosis Commission. It is thought that Mr. George Turnipseed will be appointed by County Judge W. H. Rice to fill the unexpired term of Miss Yancey.

An accident to the tank of the engine pulling the C. & O. accommodation No. 8 when near Oneonta yesterday morning caused a delay of about two hours, the Cincinnati morning papers having to be used before supper instead of dinner. No one was injured. Another engine was sent from Silver Grove.

A colored man and woman applied for a marriage license at the County Clerk's office Saturday afternoon but it was discovered that the woman had been married before and had not yet secured a divorce, so the license was refused.

In Police Court Saturday afternoon Bert Lewis, colored, and Albert Burk were each fined \$6.50 by Judge Whittaker on charges of being drunk.

The applicants will report at the camp on August 27.

Miss Nellie Steele, who has been ill, threatened with typhoid fever, is improving.

YOUNG MAN SUICIDES

William Sherman Griffith Found With Bullet Hole in Temple at Home of His Sister Near Aberdeen Last Night—Was He Have Been Examined Today By Draft Board.

William Sherman Griffith, aged 29 years, committed suicide by shooting himself in the temple at the home of his sister, Mrs. John Griffith, just below Aberdeen last night. The body was found about 7 o'clock last night.

Griffith was to have appeared before the Mason County Exemption Board today for examination and it is supposed that this caused him to commit the rash act, as he has been worrying over the fact for some time. Several years ago he was employed in the old Maysville foundry as a moulder and shortly after that institution quit business his mind became unbalanced and he has been very irrational for some time.

Griffith resided with his mother, Mrs. Mary Griffith, on East Front street, but was visiting his sister when the suicide occurred.

He is survived by his mother, one brother, Mr. Ray Griffith of this city, and two sisters in Ohio.

The funeral will be held from the home of Mrs. John Griffith in Aberdeen tomorrow afternoon at 2 o'clock. Interment in the Maysville cemetery.

SECURED PENSION

Pension Attorney Nannie McKeith Peebles of this city has secured a widow's original pension of \$5 per month for Mrs. Addie B. Hughes, also of this city, widow of Thomas B. Hughes, Company B, Fifty-Third Regiment, Kentucky Mounted Infantry, and \$2 per month for minor child, Thomas Reed Hughes; also the accrued money due her husband.

PAY DEATH PENALTY

John Henry Blue, a negro, formerly of this city, was electrocuted at the Kentucky penitentiary at Eddyville on Friday morning at 4:10 o'clock for the murder of Adam Oster of Louisville. Before he took his seat Blue asked to make a statement and thanked the officials for kind and courteous treatment. He admitted killing Oster, but said he did so in self-defense.

Mr. Harold Pollitt left yesterday afternoon for Philadelphia.

KICKERS OF 1808 AND 1917

The Springfield Republican recalls that in the Jeffersonian embargo days of 110 years ago a member of Congress bitterly complained: "Darkness and mystery overshadow this House and the whole country. We know nothing. We are permitted to know nothing. We sit here as automata; we legislate without knowing, nay, sir, without wishing to know why or wherefore." As Congress has never been without its confirmed kickers, it has of course listened to objections to the present embargo, but outside of Germany, its neutral feeders, Sweden, Norway, Denmark, Holland and Switzerland, and pro-German circles in the United States, there is little complaint to speak of and nothing even remotely suggestive of the outcry heard against the Jeffersonian embargo of 110 years ago.

The bitter complaint against the embargo of 1908 in New England, whose commerce was much injured, brought about a revival of the plan of the States of that section, first ventilated in 1803-4, to cut loose from the Union and form a separate Northern confederacy. The defeated Federalist party, or its New England branch, first proposed secession as an escape from the hated and triumphant Jeffersonian Democracy, the same sentiment flaring up again under the unpopular embargo of 1808 and yet again under the unpopular war of 1812. In those days a disgruntled Congressman thought nothing of threatening the secession of his section. Josiah Quincy of Massachusetts, for example, opposing the admission of Louisiana as a State in 1811, declared on the floor of the House in Washington that if the bill passed it would be the duty of some of the States, as it was the right of all, to prepare for separation—amicably if you can, violently if they must. Now that such threats are long out of fashion, disatisfied Congressmen content themselves with stubborn obstruction.

SEND BASEBALL NEWS TO
FRANCE

Clark Griffith, manager of the Washington American League club, who has charge of the Bat and Ball fund from which the revenue is derived to send baseball paraphernalia to the American boys in the trenches, has also now made arrangements whereby the soldiers in France will have all the baseball news that they wish, he having just placed an order for 500 copies of The Sporting News, the official baseball paper, to be sent to General John J. Pershing, United States Army, Somewhere in France. When it was originally decided to forward baseball paraphernalia to the soldiers in France it was not planned to send baseball news, but on account of the persistent demand among some of the soldiers who do not wish to play, but who want copies of The Sporting News, they will receive them in the future. In addition to these papers which Mr. Griffith has ordered, J. G. Taylor Spink, publisher of The Sporting News, has been sending five hundred copies of the paper each week to Harry Kingman, of the Army and Navy Y. M. C. A. stationed in Paris, France.

HOOVER FORMALLY IS APPOINTED
ED AS FOOD CONTROLLER

Washington, August 10—The American government assumed control of the country's food supply with the signing by President Wilson of the administration survey and regulatory bills.

Formal announcement of Herbert Hoover's appointment as food administrator was made at the White House soon after the measures were approved and tonight Mr. Hoover set forth the aims of the food administration in a statement declaring its purpose would be to stabilize and not to disrupt conditions.

Every effort will be made to correct price abuses made possible by abnormal times, Mr. Hoover said, but drastic measures will not be attempted until it is seen the purposes of the administration can be accomplished through constructive co-operation with food producing and distributing industries.

Large women will be pleased to hear that the new svelting system of designing has planned even undergarments with special regard to giving them slender lines combined with the newest styles. The foundation of good dressing is in the undergarments and the corset. Hence particular attention should be given to these articles of dress.

HOME-READING COURSE FOR CITIZEN-SOLDIERS

(Issued by the War Department and all rights to reprint reserved.)

This course of thirty daily lessons is offered to the men selected for service in the National Army, as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this Course is merely introductory.

LESSON 1
YOUR POST OF HONOR

You are called to serve as a soldier in the National Army, because that is one of your obligations as a citizen of the United States. The citizens of a republic must always be ready in the hour of need to leave their own homes and take up arms in defense of their rights and principles. Otherwise the Republic could not long continue to exist. The men who now enter military service deserve the gratitude and respect of their fellow citizens.

You are doubtless making a heavy sacrifice in order to perform this duty to your country. Hundreds of thousands of other young men and their families are face to face with similar sacrifices. All our citizens will sooner or later be called upon, each to bear his or her share of the burden. Men and women, rich and poor, all alike must do whatever is necessary and must give up whatever is necessary. For no personal interests or feelings can be permitted to stand in the way at a time when the safety and honor of the country are at stake.

As a citizen soldier you are chosen for a post of special distinction. America is justly proud of the soldiers of the past who have won for us the rights today denied and put in serious danger by the high-handed attacks of the German Government. America will be no less proud of you, as you fight to uphold those rights.

Your personal responsibility is great. As warfare is today conducted, the individual soldier counts for more than ever before. Your own skill and bravery, no matter how humble your

rank, may easily be important factors in deciding whether an engagement is to be won or lost. You can not depend upon anyone else to carry this personal responsibility for you; you must depend upon yourself.

Some American Soldiers
Americans are well-fitted to meet this test. During the Civil War, at the battle of Antietam, the 7th Maine Infantry lay, hugging the ground, under a furious storm of shot and shell. Private Knox, who was a wonderful shot, asked leave to move nearer the enemy. For an hour afterwards his companions heard his rifle crack every few minutes. His commanding officer, finally, from curiosity, "crept forward to see what he was doing, and found that he had driven every man away from one section of a Confederate battery, tumbling over gunner after gunner as they came forward to fire."

At the end of an hour or so, a piece of shell took off the breech of his pet rifle, and he returned disconsolate, but after a few minutes he gathered three rifles that were left by wounded men and went back again."

In the Confederate armies individual soldiers were no less skillful, cool and brave. On both sides they were Americans.

Here are a few cases quoted from official records. You must read between the lines to get the full benefit of the stories they tell of resourcefulness and courage.

The Individual Soldier Counts
Other things being equal, an army made up of self-reliant, thinking men has a great advance over a merely machine-like army, and this is especially true in present-day warfare. Maj. Gen. Hugh L. Scott, Chief of Staff, U. S. A., remarks on this point:

"The conditions under which modern wars are fought are ever making increasing demands on the individual soldier. * * * The individual soldiers must know how to interpret accurately orders and signals, for the enemy's fire may often so isolate him from his leader and comrades, perhaps only a step away, that he may be thrown on his own initiative in making his actions conform to those of the whole line; he may have to use his own judgment in opening fire, in advancing in intrenching."

Fair Play

Tales of heroic courage can be found in the annals of all armies and of all nations. But the American Army has its own special tradition, which these incidents illustrate. It is the tradition of intelligence, self-reliance, and individual daring on the part of men serving in the ranks.

SANITARY ORDINANCES

To Be Submitted to the City Council—
Property Owners Are Urged to Be
Present at Meeting, Date of
Which Will Be Announced
in a Few Days.

Summer has not come to Maysville this year without bringing with it typhoid fever. Nine cases have been reported and one death has occurred so far—AND TYPHOID FEVER IS A PREVENTABLE DISEASE.

The absence or presence of typhoid fever or any other serious intestinal disorder depends mainly on these three factors. (1) The Water Supply, (2) The Milk Supply and (3) The Sewerage Disposal.

The Sanitary Survey forces are regularly sending away samples of the city water for bacteriological analysis and the reports have been coming back showing freedom from coliform bacilli in amounts of water equal to two teaspoonsfuls, thereby conforming to the Government standard of safety on interstate carriers. This of course, depends to a great extent on the chlorine content being uniform at all times and in sufficient strength to kill all harmful organisms.

Samples from private supplies are still being collected and analyzed. In every instance they have shown evidence of sewerage pollution. Sometimes the bacterial count being as high as 100 in fifteen drops. The fault does not lie in the individual water supplies themselves, but in the grossly unsanitary vaults which surround them on all sides.

The purity of the milk supply depends upon the methods in use at the various dairy farms. An ordinance has been drafted and is not being gotten into legal form requiring all dairymen who sell milk in Maysville to be licensed. To be licensed they must conform to certain sanitary requirements in handling milk which will insure a clean and safe supply. Milk is an excellent breeding ground for germs when they are introduced into the supply. Milk is also a natural food for children. These two facts should be seriously considered by parents and all who are interested in giving babies a chance in life. Legislation governing the sale of milk will be a big step in preventive Medicine in safe guarding the health and lives of the little ones.

The question of sewerage disposal is of paramount issue at present, and under the "Old Vault System" constitutes a constant menace to health. The Sanitation of the cantomont zones has required the services of all the Sanitary engineers of the Public Health Service, so it has been impossible to obtain the services of one here to cooperate with the Health Survey and local authorities in outlining a better sewer system.

An improved sewer system should be obtained and is bound to come, but in the meantime, we should tide over the interval by sanitary measures, until the town is completely sewerized. In all events, the abolishment of the vaults and the introduction of the "Sanitary Privy System" should be the first act of sanitary legislation by the city council and would be one of the greatest single things Maysville could do in the conservation of health and life.

The vaults should be treated with hypochlorite of lime and closed up. A dry tight properly ventilated box, containing a water tight receptacle, such as has been on exhibition at the Survey Offices, should be installed in the old privy house and the cans scavenged once weekly as follows. The city scavenger begins his rounds with a wagon load of clean cans with covered tops. As he visits each house to be scavenged, the exchange is made, the clean cans replaced for the ones to be scavenged, which are covered and hauled to the disposal and wash stations. These disposal stations consist of concrete receptacles over main sewer lines and should be located near the mouth of the lines, below the intake pipe for the water supply.

The cans are rinsed with water and disinfectant. A little of the disinfecting solution is left in the can and it is ready to be carried to the next place to be scavenged. This system can be

operated at the cost of only \$3 to \$5 a year per home and is absolutely sanitary.

The property owners install the boxes, the city buys the cans and the inmates of the various homes pay the scavenger fee. The following are some of the cities that have installed this system in the unsewered area with marked success:

1. Greenville, S. C.
2. Tuscaloosa, Ala.
3. Rome, Ga.
4. Hillsboro, Texas.
5. Hubbard City, Texas.
6. Okmulgee, Okla.
7. Henryetta, Okla.
8. Morris, Okla.
9. Union City, Tenn.
10. Lindale, Ga.
11. Excelsior Springs, Mo.

It is all important that property owners be present at the council meeting when these ordinances are presented for action. Their adoption may mean the safe guarding of you or your families' health and certainly the health and lives of your neighbors and friends in the years to come.

The date of this council meeting will be announced soon.
